**Start Date:** 05/29/2012 – 08/10/2012

Swiss Re is a leading and highly diversified global reinsurer. The company operates through offices in over 25 countries. Founded in Zurich, Switzerland, in 1863, Swiss Re offers financial services products that enable risk-taking essential to enterprise and progress. The company's traditional reinsurance products and related services for property and casualty, as well as the life and health business are complemented by insurance-based corporate finance solutions and supplementary services for comprehensive risk management. (For more company information, go to [www.swissre.com](http://www.swissre.com))

## **Job Description:**

Swiss Re is one of the largest professional Property reinsurers in the Americas. Our experienced staff offers specialized assistance to clients in all phases of property insurance from risk selection through claims management.

The Property Underwriting Intern will assist property underwriters with treaty reinsurance analysis and pricing (rating methodology of experience and exposure analysis); will be exposed to actuarial methods and reinsurance pricing tools (natural catastrophe and terrorism models); will assist with Operational Risk Management and Compliance controls (underwriting guidelines, SOX controls and contract wording); and in addition will work on special projects such as data mining, data collection, data reporting and file documentation.

## **Program Details:**

Every year, Swiss Re offers internships to a number of bright and highly motivated students, enabling them to benefit from the company's global perspective and to discover the world.

A Swiss Re internship can be much more than a temporary job - it can be your first step to a rewarding career.

The program is expected to last 10 - 12 weeks, offers competitive salaries, and is offered in different Swiss Re locations.

## **Requirements:**

- In Junior year of an undergrad degree program
- Exceptional academic performance
- Highly motivated with an ability to work in a collaborative environment
- Strong analytical and quantitative skills
- Excellent written and verbal communications skills, especially of complex solutions.
- Ability to sustain high level of work output and meet very tight deadlines.
- Independent thinking and creative problem solving skills
- Advanced Excel and good computer aptitude is also required.
